Tips on Registering on HavenX Many people don't know this mostly When people Creating A Username they use small letter and the tendency is when your done creating your Username it will Display in lowercase we're as you can always use something like this: HavenX instead of havenx doesn't matter whether you type it in lower case the outcome will be HavenX and here we love if you use names instead of names & numbers combinations. Isn't it nice to see your name like HavenX instead of HavenX_12345 be creative use your imagination sure there are lots of names combination you can think of...
